**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

COMMUNICATION

This communication is in response to the Response to Request for Corrected Filing Receipt mailed on March 26, 2009 in response to Applicants' Request for Corrected Filing Receipt filed on June 22, 2005, in above-identified application.

The Response to Request for Corrected Filing Receipt indicates that Applicants' Request for Corrected Filing Receipt filed June 22, 2005 was denied because an application to which priority is claimed (60/350,360 filed 01/24/2002) was filed over one year prior to the filing date of the instant application. Applicants acknowledge that the entire priority chain encompasses more than one year. However, Applicants note that the instant application claims the benefit of Israel Patent Application IL152904 (filed 11/17/02), which properly claims the benefit of (and was filed fewer than twelve months after) U.S.S.N. 60/350,360 (filed 01/24/02). The entire priority chain is as follows:

The instant application is a continuation application and claims the benefit of, and priority to, PCT/IL03/00064, filed January 26, 2003.

PCT/IL03/00064, filed January 26, 2003, claims the benefit of, and priority to, Israel Patent Application IL152904 filed November 17, 2002 (**The PCT application was filed within twelve months of filing the Israel Patent Application**).

Israel Patent Application IL152904 filed November 17, 2002 claims the benefit of, and priority to, the following applications:

U.S. Patent Application 60/404,137 filed August 19, 2002 (**The Israel Patent Application was filed within twelve months of filing this US provisional application**);

U.S. Patent Application 60/376,183 filed April 30, 2002 (**The Israel Patent Application was filed within twelve months of filing this US provisional application**); and

U.S. Patent Application 60/350,360 filed January 24, 2002 (**The Israel Patent Application was filed within twelve months of filing this US provisional application**).

As the instant application is a continuation application of PCT/IL03/00064, filed January 26, 2003, which properly claims the benefit of, and priority to, Israel Patent Application IL152904 filed November 17, 2002, which properly claims the benefit of, and priority to, U.S.S.N. 60/350,360, filed January 24, 2002, Applicants submit that the instant application is entitled to claim priority to U.S.S.N. 60/350,360.

Applicants submit herewith a copy of priority information listed in Israel Patent Application IL152904, which states that IL152904 properly claims the benefit of U.S.S.N. 60/350,360. On June 29, 2009, Applicants amended the Related Applications section of the instant specification to clearly indicate that Israel Patent Application IL152904 claims the benefit of U.S.S.N. 60/350,360 (copy of 6/29/09 Amendment submitted herewith).

Applicants believe that no fees are due with this filing. However, the Commissioner is hereby authorized to charge any additional fees that may be due, or credit any overpayment, to Deposit Account No. 50-0311, Attorney Ref. No. 24024-505 CON.

If there are any questions regarding these references, the Examiner is encouraged to contact the undersigned at the telephone number provided below.
